

# Training Academy workshop 5

## Workshop CAC CONTROLS: Network Controls

### Workshop outline

These are in depth training workshops on a range of LG Network Controls, focusing on installation requirements, setup and operation for each controller type. All controls are available at our academy practice room and as part of the training, trainees will be required to install and setup the specific control to the LG system network. The individual module on controls we offering are:

- AC Smart (3 Hrs)
- ACP/AC Manager (4 Hrs)
- Bacnet Gateway Setup (3 Hrs)
- Lonworks Gateway Setup (3 Hrs)
- Simple Central Controller & Function Controller (3 Hrs).

### LG product range covered in this workshop include:

- Wall Mounted Split Systems
- Ducted Split Systems
- Multi F/FDx – Multi Split Systems

Including the latest models for the range.

## Who should attend?

Authorised LG Dealers and mechanical contracting specialists including:

- Air Conditioning Control Specialist
- Installation Electricians
- Project Managers
- Team Leaders.

## How to book - no cost
